# Intarcia Therapeutics & CobbleStone Contract Insight® Enterprise Edition

## Intarcia Therapeutics Challenges

Intarcia Therapeutics was in need of a contract management software that would be able to conquer some of the on-going issues that they were facing on a daily basis. A few of the main challenges that they were faced with were that they currently had a manual contract lifecycle and request process, i.e. email, file/print server storage, there was no real-time visibility into any vendor or contract process, and they were looking for a web-based system with enhanced capabilities to tailor towards their business needs.

## CobbleStone Software's Solution

Intarcia Therapeutics chose CobbleStone Software CobbleStone Contract Insight® Enterprise for its robust and extensive functionality, as well as its intuitive user interface. The Sr. Director of Enterprise Applications at Intarcia Therapeutics stated, "Cobblestone is specifically designed as a CLM with extensible and scalable functionality... Cobblestone's product value has far exceeded that of any competitor."

## Customer Benefits

CobbleStone's Contract Management Software was able to alleviate Intarcia Therapeutics' contract lifecycle issues. Using CobbleStone Contract Insight®, Intarcia Therapeutics now has a solution that is able to encompass the functionality that they were looking for in a contract management software including contract status visibility, approval tickler alerts, and user dashboards. The Intarcia Therapeutics Sr. Director of Enterprise Applications was also very pleased with CobbleStone's implementation services and stated, "Great training and overviews. Additional follow-up/instructions were accurate and efficient. On-line documentation was also accurate and easy to follow...Overall, outstanding experience and very stable product."
