

COBBLESTONE CUSTOMER SUCCESS

Background

Intarcia Therapeutics, Inc., is a rapidly growing biopharmaceutical company that is committed to developing new and innovative therapies to help with the prevention and management of serious chronic diseases.

Challenge

Intarcia Therapeutics was in need of a contract management software that would be able to conquer some of the on-going issues that they were facing on a daily basis. A few of the main challenges that they were faced with were that they currently had a manual contract lifecycle and request process, i.e. email, file/print server storage, there was no real-time visibility into any vendor or contract process, and they were looking for a web-based system with enhanced capabilities to tailor towards their business needs.

Solution

Intarcia Therapeutics chose CobbleStone Software Contract Insight Enterprise for its robust and extensive functionality, as well as its intuitive user interface. The Sr. Director of Enterprise Applications at Intarcia Therapeutics stated, "Cobblestone is specifically designed as a CLM with extensible and scalable functionality... Cobblestone's product value has far exceeded that of any competitor."

Challenge:

Intarcia Therapeutics was determined to find contract management software that could allow them gain visibility into their contract and vendor processes, as well as being able to have an end-to-end system with enhanced CLM functionality.

Solution:

CobbleStone Software Contract Insight Enterprise

Benefits:

- Web-based Access
- Visibility
- Intuitive
- Cost Effective

COBBLESTONE CUSTOMER SUCCESS

“Great training and overviews. Additional follow-up/instructions were accurate and efficient. On-line documentation was also accurate and easy to follow...Overall, outstanding experience and very stable product.”

Larry B.
~ Sr. Director of Enterprise Applications

CobbleStone Software
