Country: USA

Industry: Technology

Products and Services: CobbleStone  
Contract Insight® Enterprise Edition

# Vertical Screen & CobbleStone Contract Insight® Enterprise Edition

## Vertical Screen's Challenges

Vertical Screen was looking for a system that could store and retrieve a large volume of digitized contracts efficiently. They also needed to track expiration dates and the receipt of a contract's original copy. Searching and reporting on a variety of contract parameters was also needed for Vertical Screen to manage their contracts more effectively.

## CobbleStone Software's Solution

CobbleStone's Contract Insight® had all of the features that Vertical Screen was looking for in a software solution at a competitive price. Nancy, a Corporate Paralegal for Vertical Screen, stated, "The system was easily customizable by us and it was easy to learn to navigate through the system." Vertical Screen stated that they had consulted with approximately six references and had been informed by all of them that CobbleStone's system support was excellent. Vertical Screen informed us that after working with CobbleStone themselves, they have found this to be true.

## Customer Benefits

CobbleStone's software makes it easy to retrieve agreements. Nancy also stated, "The full text searching is great, and the email alerts for expiration dates are extremely helpful." Vertical Screen feels that the support is very responsive and quick to resolve any issues that arise.

CobbleStone Software offers award-winning SaaS (web-enabled) and on-site (deployed) contract management software solutions to assist companies in boosting revenue, reducing costs, increasing configurability, reducing friction, and mitigating risk.

CobbleStone's contract management software suite – Contract Insight - enables organizations to effectively and efficiently manage their contracts through the entire contract lifecycle.
