

# COBBLESTONE CUSTOMER SUCCESS

## Background

[Vertical Screen](#) is one of the world's leading applicant screening firms. They operate through three subsidiaries – Business Information Group, Certiphi Screening, and Truescreen as well as a sister company, Fieldprint. Vertical Screen serves the largest and most respected institutions, organizations, corporations, and government entities worldwide.

## Challenge

Vertical Screen was looking for a system that could store and retrieve a large volume of digitized contracts efficiently. They also needed to track expiration dates and the receipt of a contract's original copy. Searching and reporting on a variety of contract parameters was also needed for Vertical Screen to manage their contracts more effectively.

## Solution

CobbleStone's Contract Insight™ had all of the features that Vertical Screen was looking for in a software solution at a competitive price. Nancy, a Corporate Paralegal for Vertical Screen, stated, "The system was easily customizable by us and it was easy to learn to navigate through the system." Vertical Screen stated that they had consulted with approximately six references and had been informed by all of them that CobbleStone's system support was excellent. Vertical Screen informed us that after working with CobbleStone themselves, they have found this to be true.

### Challenge:

Implementing a system that would store and retrieve a large volume of digitized contracts efficiently.

### Solution:

CobbleStone Software  
Contract Insight™ Enterprise

### Benefits:

- Full Text searching
- Email alerts
- Responsive support team

**"CobbleStone has all of the features we needed at the most competitive price."**
